NEW AD

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, Nov. 23rd, 1878.

THE Amir of Afghanistan having failed to take advantage of the ultimatum offered him by our Government, hostilities were commenced on the 21st inst., and on the 23rd the capture of the first place of importance, the Fort of Ali Musjid, was effected. What the effects of an Afghan campaign will be on Commerce in the East naturally depends upon its duration, but one of the first results must be dearer money. The trade of Bombay has, however, been in a state of depression for so many months, that no change for the worse can take place, and as the effect of the war will be more immediately felt in Bengal, it is possible that this Port may even benefit indirectly by a falling off in the Imports and Exports of that Presidency.

Dulness is still the prevailing characteristic of all our Markets, and both Exporters and Importers have apparently made up their minds that no improvement can take place until the New Year. That our Exports will be unusually large during the first three months of next season we have now great cause to doubt; there will be no supplies of Wheat, and only very small quantities of Linseed or Rapeseed until quite the end of March, and with the probability of low rates for Cotton ruling in Liverpool there will be little inducement to Natives to either ship on their own account, or to sell freely in this Market. That the crops of Wheat, Seeds, and Cotton will, however, be exceptionally large, we have still every reason to believe. Cotton has taken a slightly better turn at Home during the past few days, owing to comparatively light American Receipts, but the improvement brings no increase in business here. The new crop of Broach and Hingunghaut although large, is very late, and none has yet arrived in this Market. Prices for old are maintained at such a high figure by the paucity of ready Cotton that Exporters have still to be content to look on. So far the reported contracts in New Cotton for forward delivery have been exceptionally small, which will be all in favor of operators when arrivals here are liberal, as there will be more probability of prices ruling under Home quotations. In Wheat there can be nothing doing until the supplies of new grain come forward in April and May next, as the country has been swept bare of old by the increased local consumption arising from the failure of other food crops. Of Oil-Seeds the supplies of old are also small; the crop of Guzerat Rapeseed last year was a failure, and the bulk of what there was to ship came forward before the rains, and of Linseed there will also be a scarcity until the new crop matures in March next. The Exports until March and April will consequently be confined almost exclusively to Cotton, Wool, and Gingelly Seed; of these, our chief article of Export, Cotton, will not, we believe, for the reasons previously stated, be pushed forward in unusual quantities; Wool will be more affected by the War than any other produce of the country, as it is from the districts immediately around the seat of War that we draw our chief supplies, and we must consequently look for a falling off in them next season. Gingelly Seed, although the crop this year is a large one, and supplies are now arriving in this Market, is not an article of sufficient importance to affect our Export trade either one way or the other. As regards our Import trade, the strongest feature in favour of increased activity in the future is still the prospect of an abundant harvest. In a climate like that of India where clothes are more of a luxury than a necessity, the Natives accommodate themselves to circumstances during times of famine, and as the prices of grain increase, so the numbers and quality of their garments decrease, and it is astonishing with what a small quantity they are satisfied; but as soon as food grains are plentiful their love of finery at once asserts itself and an active demand arises for the produce of the looms of Manchester and Glasgow. That an improved demand will shortly arise for both Goods and Metals we have little doubt, provided the War in Afghanistan does not counteract the good effects of an abundant harvest, but in the meantime the trade remains in its previous state of depression.

At the close our Markets may be summarised as follows, viz.:—Money. Exchange weak. Government Paper depressed. Shares quiet. Piece Goods, Yarns, and Metals dull. Coals in moderate demand. Exports generally stagnant. Freights, we imagine, have at length reached their lowest point, engagements having been made during the week of Seeds for Liverpool by Steamer at 6s. 3d. per ton.

The most noteworthy item of intelligence in the commercial telegrams from the London during the week has been the reduction of the Bank of England rate of discount from 6 to 5 per cent., owing to the favourable return of the Bank for the week ending on the 20th instant, which shows an increase in the Reserve of £800,000 and in Bullion of £500,000, while Bills discounted are less by £500,000. The proportion of the Reserve to Liabilities has increased from 38 7-16 to 40 15-16 per cent., and the Market rate of discount on 6 months' Bank Bills has declined to 4½ per cent. We hope we may now consider the temporary panic and tightness in the Money Market occasioned by the failure of the City of Glasgow Bank at an end. Consols close firm at 96¼.

MONEY.—The Bank of Bombay return for the week ending on the 18th instant shows an increase in the Cash Balance of 25 lakhs, half of which arises from a falling off in the public demand for money, which would lead one to expect lower rates of discount, were it not for the war, but these remain at our previous quotations of 4 per cent. on Fixed Loans on Government Securities, 5 per cent. on Demand Loans, and 6 per cent. on Mercantile Bills.

EXCHANGE.—Operations in Sterling for last mail closed on the basis of 1s. 7 7-16d. for demand Bank and 1s. 7¾d. for 3 months' sight Credit Bills. Transactions during the week have been on a small scale, as whilst the present uncertainty exists as to the Government requirements for the Afghan Campaign, Banks are unwilling buyers of Bills for forward delivery, and with our export trade at a standstill there are very few ready Bills making. At the weekly bidding for Council Drafts in London on Wednesday, £200,000 were offered, of which £60,000 were allotted to Calcutta and £50,000 to Bombay, all in Bills. Tenders at 1s. 7 5-16d. on Calcutta, and at 1s. 7¾d. on Bombay, receiving in full. The value of Bar Silver is unchanged at 50½d. per oz., and whilst the demand for remittance to the East continues on its present small scale, it is improbable that we shall see any material advance, unless the sales of Council Bills are withdrawn for a time to meet the Government requirements for the Frontier War. That this course will be adopted seems probable, as it is unlikely that another loan will be brought out just at present in addition to the one reported as having been privately negociated during this week in Calcutta. On rates for Sterling have fluctuated very slightly during the week, and close as follows, viz:—Bank Bills on demand 1s. 7¾d.; 6 months' sight 1s. 7 15-16 d.; Credits, 3 months' sight 1s 7 13-16d.; 6 months' sight 1s. 8¼d.; Documents, 3 months' sight 1s. 7¾ d.; 6 months' sight; 1s. 8 3-16d. The rate for Mercantile Bills on Paris at 3 months' sight is fros. 2-10.

On Calcutta the rate for Demand Bills is 100½ and that for 60 days' sight Drafts is unchanged at 99¾.

On China the nominal quotation for 60 days' sight Mercantile Bills is Rs. 217 per 100 dollars.

The latest quotation from Hongkong for 6 months' sight Bank Bills on London is 5l 3-9d. per dollar and from Shanghai 3s. 8¼d. per tael.

GOVERNMENT SECURITIES.—Early in the week the Market was active, and with a good demand from investors rates advanced ¼ to ½ per cent. and a further quantity was taken up in Calcutta of the New Transfer Loan at the Government limit of par. Since the commencement of hostilities on the Frontier the Market for Government Paper has been disorganised with a general inclination on the part of holders to realize at our quotations, viz.:—Fours, Rs. 94¼; Old Fours-and-a-half, Rs. 94¾; and New Fours-and-a-half, Rs. 100. It is stated that a new Loan at Four-and-a half per cent. for Rs. 100,00,000 (one crore) has been privately negociated in Calcutta by Government at Rs. 99½ for one year. This should have a strengthening effect on the existing loans, as the prospect of another being floated in the open market will at all events for a time be averted.

SHARES.—The tone of our Shares Market throughout the week has been generally quiet, and the following alterations have taken place. In Bank Shares Nationals have advanced Rs. 1 and Bombays have declined about ¼ per cent. The values of Land Companies are unchanged with the exception of a decline of Rs. 5 in Colabas. In Press Companies Bearas have advanced Rs. 10, Broach Rs. 2, East India Rs. 20, Mofussil Rs. 2½, and Scinde Rs. 10, per share. In Spinning and Weaving Companies Alexandras have declined Rs. 15, Anglo-Indian Rs. 8, Bhownuggur Rs. 50, Bombay United Rs. 30, Broach Mills Rs. 2, Colabas Rs. 10, Dhurrumseys Rs. 5, Empress Rs. 10, Fleming Rs. 5, Great Eastern Rs. 25, Hindostan Rs. 15, Jewraj Balloo Rs. 15, Khatow Rs. 15, Manchester and Bombay Rs. 2, Mandvie Rs. 10, Manockjee Petits Rs. 25, National Rs. 20, Nicol Rs. 10, Nursey Rs. 5, Oriental Rs 10, and Alfred Mills have advanced Rs. 25, and Alliance Rs. 45, per share.

The PIECE GOODS MARKET shows no signs of improvement, the demand from up-country dealers during the week having again been very moderate, the clearances from the Bazaar since last Mail left being only estimated at about 600 packages. From first hands the reported purchases are also very small, only amounting to about 500 bales, but holders are generally firmer, and the reported sales of Grey Goods have shown an increase of 1 anna per piece all round. The supply of Food Grains is now rapidly increasing, and consequently rates are decreasing, and this should stimulate the up-country demand for goods. On the other hand, the commencement of hostilities in Afghanistan completely extinguishes any hopes that may have been entertained that a Frontier War might have been avoided, and the effects cannot be favourable to our import trade, although trade in Bombay will probably suffer less than in Scinde and in the Bengal Presidency, but a long war must mean dearer money and higher rates of exchange, and this of itself will act as an incitement to the local dealers to extend their operations, even if the up-country demand is affected.

In Grey Goods the reported transactions are confined to Shirtings and Madapollams with the exception of trifling sales of Cambrics and T. Cloths. Of Bleached Goods small sales are reported in White Shirtings, and in Dyed Goods sales of Prints are reported at very low rates. For Local Made Cloths there is also scarcely any enquiry.

TWIST.—The Market for English Yarns continues very dull, there being absolutely no demand from the trade. Importers are not in the meantime pressing their stocks on the Market. In Local Yarns there is a fair business passing at about previous rates.

METALS.—Copper, with but very limited enquiry, only small clearances have been effected, and prices show no change. The same same remark applies to Yellow Metal which remains as last quoted. Iron is also only in moderate request.

COALS.—There has been little doing during the week, as sellers of arrival cargoes are still holding out for higher rates than buyers are willing to pay. For ready Coal the Market is dull.

COTTON.—The Liverpool advices received in the early part of the week were extremely dull, and the quotation for Mid.-Orleans further declined 1-16d. per lb.; latterly there has apparently been less depression in the Market, but it is still very quiet with Mid.-Orleans quoted at 5 15-16 and Fair Dhollera 4¼ per lb. Rates here are almost unchanged from last Mail day; the purchasers of Old Cotton are still almost exclusively confined to the local Mills, and of New, there are more sellers than buyers at our last quotations.

The *Receipts* from up-country during the week have been 4,550 bales, making a total of 42,679 bales against 39 427 bales last year and 84,113 bales at the same period in 1876, so that although the arrivals are somewhat in excess of last season they are only about half what they were the year before. The Cotton now coming in, and which during the last day or two has increased considerably, is confined to old descriptions, as of the new only a few bales of Oomrawutee have yet come to Market, and it is manifest that our exports for Europe must continue unusually small until the end of January.

The *Clearances for Sea* during the week have only been 1,004 bales, making stotal of 727,085 bales since 1st January against 825,934 bales for the corresponding period last year, a deficiency of 98,849 bales, and this seems more likely to be increased than diminished up to the end of the year.

NEW CROP.—No change can be reported in the actual state of the crop, none at all events which would induce us to alter our estimate of the ultimate yield. This is still generally put at about 153,000 bales over last year, in which case the probable exports during the first six months of 1878 would be about 800,000 bales. Only a few sample lots of Oomras have yet come to hand, and these do not represent the quality of Cotton which we may expect later on, for as is frequently the case with first pickings black leaf and yellow stain predominate. Fair arrivals of the new Crop may be looked for by the middle of next month, but not previously. Of Hinguughaut not a bale has yet arrived, and the samples which are coming to hand are still of very indifferent quality. Of Broach reports continue very favourable, but sellers, as a rule, do not care to contract for earlier than February delivery. The Compta and Dhollera Crops are also well spoken of.

The following are to-day's quotations for full pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission:—

		Candy of 784 lbs.	₹ lb. C. & F.
Old—			
Oomrawuttee	Fully Good Fair	....Rs. 191 = 4 13/16d.	
Do.	Good Fair	.... „ 185 = 4 11/16d.	
Do.	Fully Fair	.... „ 176 = 4 9/16d.	
Dhollera	Good Fair	.... „ 185 = 4 11/16d.	
Do.	Fair	.... „ 170 = 4 7/16d.	
S. G. Dharwar	Good Fair	.... „ 186 = 4 11/16d.	
Compta	Fully Fair	.... „ 179 = 4¾d.	
New—			
Oomrawuttee	Good (Jan. delivery)	.... „ 187 = 4 13/16d.	
Do.	Good (Feb. delivery)	.... „ 183 = 4¾d.	
Do.	F. G. F. do.	.... „ 180 = 4 11/16d.	
Do.	Good Fair do.	.... „ 175 = 4½d.	

LINSEED continues in very small supply, and during the last few days has been in somewhat more demand at Rs. 6-7 to Rs. 6-8 per cwt. for ready parcels. For March-April delivery New Crop there are sellers at Rs. 6-1 per cwt. without finding buyers.

RAPESEED, in the absence of supplies, is almost nominal at the quotation of Rs. 7-2 per cwt. for Guzerat.

GINGELLY is arriving in moderate quantities, but the price is maintained at Rs. 41 per candy for ready Seed.

WHEAT.—There is still nothing doing for export, and the demand for local consumption is less active, owing to larger arrivals of other grain in the market. We quote:—Rs. 39 for White; Rs. 38 for Mixed; and Rs. 36 for Hard Red.

The Bombay Gazette

MONDAY, NOVEMBER 25, 1878.

THE full and interesting details we are able to give this morning of the capture of Ali Musjid show that the Afghans have some good fighting stuff in them. The garrison of this isolated Fort, though completely outmatched, seem to have made a good defence during the afternoon of the 21st against Sir Sam Browne's Division, and then, understanding, with a sagacity worthy of the most intelligent European troops, that if they stood their ground much longer they must be surrounded and taken prisoners, they quietly evacuated the Fort during the night, abandoning their guns, and seeking only a safe retreat for themselves. This strategical movement disconcerted General Browne's plan of operations, but a considerable number of the garrison had their retreat cut off by General Tytler's Brigade, and 500 are said to have been taken by the friendly Khyberis. After occupying Ali Musjid, and counting the trophies, which included 22 guns, the British force pushed onwards, on the 23rd instant, towards Landi Khana, a village 13¾ miles from Ali Musjid. The road along this section of the Khyber Pass runs over very difficult ground, which provides admirable defensive positions for an enemy who knows how to make use of them. Beyond Ali Musjid the bed of the stream running through the defile is confined between rugged hills, and the road is in places narrowed to about 70 feet. After passing through the valley of Lalbeg the troops will come to the foot of the ascent of the Landi Kotal. Here the road, which had been on an easy gradient all the way from Peshawur, has to climb a spur of the Safed Koh which runs right across the narrow Khyber valley, and forms a watershed, the springs which rise on its eastward face supplying the stream which runs past Ali Musjid and Peshawur, while those on the western side feed the Kabul river as it passes between Daka and Lalpura. The crest of the Landi Kotal is 3,373 feet above the level of the sea, or 900 feet above Ali Musjid and nearly 2,000 above Peshawur; and the Pass is for some distance not more than 140 feet wide, the hills on either side being very steep. It is obvious that a strong work on the Landi Kotal, defended by resolute men, should block the Pass, which it faces, much more effectually than a detached fort like Ali Musjid which can be turned; and General Hough recommended that a work should be built here, as the guns could enfilade with destructive effect both the eastern road from Ali Musjid and the western from Daka. Sir Sam Browne's most difficult task should be to clear the Landi Kotal, especially as we are now told that the Afghan artillery is well served. When he has overcome this obstacle, he will encounter no further resistance as far as Daka, to which place the road rapidly descends from the Landi Kotal, passing the village of Landi Khana at an

LATEST INTELLIGENCE

THE AFGHAN WAR.

THE ATTACK ON AND CAPTURE OF ALI MUSJID.

LAHORE, Nov. 23.

A report from General Ross, commanding at Peshawar, dated the 22nd, states that Sir Sam Browne's Force entered the Khyber Pass on the morning of the 21st, the first and second Brigades being detached to the right to Rohtas. A severe Artillery fight took place from 12 noon to 4 p.m., the Kabul Artillery being well served. At 4 p.m. the third Brigade under General Appleyard advanced, and got close to Ali Musjid Batteries. Our 40-pounder guns silenced the Afghan guns. Our troops bivouacked on ground before Ali Musjid on the night of the 21st, but during the night Ali Musjid was evacuated by the enemy.

A report from Sir Sam Browne, dated Ali Musjid, night of the 22nd, states that the captured guns had not then been collected, but that probably about ten were captured with many tents and some mules.

Major Birch and Lieutenant Fitzgerald, of the 27th Punjab N. I., were killed, and Captain Maclean, 14th Sikhs, wounded. Some thirty or forty men in all were killed or wounded. The force remained at Ali Musjid on the night of the 22nd. Moved on to-day, the 23rd, to Landikhana. The second Brigade under General Tytler cut off the retreat of the Ali Musjid garrison, and captured many, who gave up their arms.

LAHORE, Nov. 24.

A further report from the force received through Jamrud puts the number of guns taken at 22, and states it is believed that the greater part of the Amir's force, including the General and some of the officers, are prisoners.

FIVE HUNDRED OF THE ENEMY INTERCEPTED BY THE AFRIDIS.

LAHORE, Nov. 23.

A telegram from Major Cavagnari, dated the 23rd, states that the Afridis intercepted 500 men of the Kabul army and took their arms and clothing. The night had passed off quietly.

THE QUETTA COLUMN.

LAHORE, Nov. 23.

General Biddulph's Force, accompanied by Major Sandeman, has advanced into the close vicinity of Pishin. No resistance of any consequence seems to be contemplated at Pishin.

(FROM OUR SPECIAL CORRESPONDENT.)

CROSSING OF THE FRONTIER BY GENERAL BIDDULPH'S FORCE.

QUETTA, Nov. 23.

The Head Quarters and troops of General Biddulph's Force have crossed the Frontier and encamped two marches hence; they will probably enter Pishin to-day, where no resistance is expected. Two or three hundred Ghilzies have arrived asking employment. They state that the tribe is disaffected towards the Amir, and will rebel upon our advance. This, if true, is most important, and reduces greatly the probabilities of resistance.

[REUTER'S TELEGRAMS.]

(By Red Sea Cable.)

WINTER SESSION OF PARLIAMENT.

LONDON, Nov. 22.

The Cabinet has decided to summon Parliament to meet for an extraordinary Session in December on account of the War with the Amir of Afghanistan.

THE ASSEMBLY OF PARLIAMENT.

LONDON, Nov. 23.

It is announced that Parliament is to assemble for the extraordinary session on December the 5th.

THE "TIMES" ON THE VICEROY'S PROCLAMATION.

An article in the *Times* on the Proclamation issued by the Viceroy to the Amir, Sirdars, and people of Afghanistan, warmly approves of the declaration therein contained with reference to Afghan independence.

LETTER FROM MR. GLADSTONE.

Mr. Gladstone has published a letter in which he accuses the Government of having broken down and trodden under foot the Act of 1858.

Consols closed yesterday at 96¼.

AUSTRIA AND RUSSIA.

VIENNA, Nov. 23.

The Chancellor of the Austro-Hungarian Empire, in replying to an interpellation of the Russian Government, distinctly disavowed the declaration of the Russian Ambassador that the Russian troops were only bound to evacuate Turkish territory three months after a definitive treaty has been concluded with Turkey and gave assurances that Austria intends to insist upon the faithful fulfilment of the Berlin Treaty in accord with the other powers.

THE NEW GOVERNOR GENERAL OF CANADA,

HALIFAX, Nov. 23.

The Marquis and Marchioness of Lorne have arrived here.

BOMBAY GAZETTE OFFICE,
Nov. 22, 1878.

WE are informed that H. E. the Governor will arrive here in the May Frere early this morning.

WE are glad to hear that Mr. Justice Bayley has accepted the appointment of Major of the Bombay Volunteers, in succession to Mr. Maxwell. Mr. Bayley is just the man to fill such a post most creditably; and the Volunteers may be heartily congratulated on this accession to their strength. Both the Majors of the Corps are now Judges of the High Court; and the good example set by the Bench should stimulate some of the younger members of the Bar, who have a little spare time on their hands, to become active Volunteers.

WE hear that Colonel G. C. Evezard, the Cantonment Magistrate at Deesa, who was expected to retire from the service next month, has withdrawn his papers and elected to remain on.

CAPTAIN KELLOCK, P. and O. Company's Agent' has issued invitations for a large party on board the "Kaisar-i-Hind" next Saturday afternoon, when the ship will be open for inspection.

THE *Civil and Military Gazette*:—His Excellency the Viceroy arrived yesterday (Tuesday) morning by special train from Umballa, accompanied by Colonel Colley, C. B., Private Secretary, Colonel Baker, C. B., Military Secretary, and a personal staff. Lady Lytton follows on the 21st. The Lieutenant Governor of the Punjab with the Secretaries and Heads of Departments, and a brilliant crowd of officials, with several European and native non-officials, met His Excellency on the platform, where a guard of honor from H. M.'s 68th Light Infantry was drawn up. The train was punctual to a second, being under the able guidance of Mr. S. Grant who presided at the engine. After some introductions and brief conversations the Viceroy left under a Royal salute for the Nawab of Bhawulpore's house, escorted by a fine troop of the 15th Bengal Cavalry. Lord Lytton looked in excellent health and spirits. His Excellency the Commander-in-Chief was to arrive from Rawulpindi yesterday (Tuesday) evening, having been recalled by telegram to meet the Viceroy here.

THE question whether a review of a judgment could be had of a decision passed by a Small Cause Court, has recently been considered by a Full Bench of the Chief Court of the Punjab, and decided in the affirmative by Justices Plowden and Smyth, Mr. Justice Elsmie *dubitante*.

THE Lahore correspondent of the *Pioneer* telegraphs under date Nov. 21:—The Famine Commission, consisting of Mr. Caird, Mr. Cunningham, and Mr. Elliott, arrived at Lahore this morning, and are the guests of the Lieutenant-Governor. Mr. Ballard is laid up at Saharunpore. Mr. Peile, the Bombay Commissioner, arrives to-morrow. Lady Lytton is expected to-morrow. The Chief returned from Peshawar on Tuesday evening.

THE *Englishman*:—A rumour, it is said, was freely circulated in Peshawar some days since that the Amir Shere Ali has, by some means or other, fallen into disrepute with the Sirdars of Kabul, who, it is asserted, have assumed such a hostile attitude towards him, that he has surrounded himself by a bodyguard of his most reliable dependants and is living in seclusion, and constantly oppressed with the dread that his Sirdars will break into open revolt, and, releasing Yakub Khan, raise him to the throne. The rumour is, of course, a gross exaggeration, but there can be no question that Shere Ali is intensely unpopular with a large portion of his subjects.

THE *Civil and Military Gazette*:—Colonel the Hon'ble Sir Andrew Clarke, Colonel J. S. Trevor, Secretary to the Government of India, Railway Branch, Mr. G. L. Molesworth, Consulting Engineer, Colonel F. W. Peile, R. E., Director of State Railways, Western System, and Colonel Medley, R. E., left Lahore on Tuesday night by special train for Mooltan. After arranging matters requiring their attention there, they will proceed to Kurrachee. They are accompanied as far as Mooltan by Mr. C. Stone, Officiating Agent, and Mr. David Rose, Traffic Manager, Scinde, Punjab and Dehi Railway.

THE *Englishman*, commenting on the order for the troops to advance, says:—Apprehension lest the Home Government should seize the opportunity of any reply from Shere Ali, not absolutely defiant, to waste time in fruitless and damaging negotiations was so prevalent, that this news will have produced a very general feeling of relief in the minds of the public. The sense that, for a time at least, the vital interests of the British Empire are safe from the morbid prejudices of the peace-at-any-price party, as well as from the selfish machinations of men who look to their own private interests, is the paramount to every other consideration, is as grateful as of late it has been unwonted.

IN a Resolution of the Government of India dated the 13th inst., it is stated that "the post of Superintendent of Way and Works on the Holkar and Neemuch line will be abolished as soon as the present Manager returns to duty. He is at present on field service. One of the Deputy Consulting Engineerships in Bombay will be suppressed, and the Manager of the Dhond and Munmad Railway will assist the Consulting Engineer, Bombay, in inspection work and in any other duty usually devolving on one of the Deputy Consulting Engineers in Bombay."

THE *Pioneer*:—The reports from Sarun in Bengal are not satisfactory. With each succeeding week of drought, prospects are becoming rapidly worse. Except on small areas of low ground the paddy crop has entirely failed.

THE *Pioneer*:—Amid many acts for which he may justly be blamed, Lord Beaconsfield's refusal to listen to Lord Lawrence's committee may be heartily applauded. Government by out-of-doors agitation is becoming something more than a nuisance in English politics. It threatens, if the present degrading system is encouraged, to make good government in-doors something like an impossibility. The more boldly it is discountenanced by ministers the better.

THE *Delhi Gazette* publishes the following story:—"An amusing but withal instructive incident is reported to us from Lucknow. It would appear that a short time ago General Chamberlain, who commands the Oude Division, fell in with a young Martiniere lad who is a member of the Lucknow Rifle Corps, and was returning home from early morning parade. The juvenile rifleman was in full war paint; the General in mufti. Instead of the lad saluting his superior officer he passed on his way rejoicing, when the General called to and interrogated him as to whether he was not enjoined by his training to salute an officer. The reply was quite to the point, and to the effect that he was ordered only to salute officers when in uniform! There could be no possible demur to such a rejoinder, and the old soldier rode on, no doubt impressed with the cuteness of the young volunteer. But matters were not to end here. General Chamberlain gave a treat to the Martiniere boys the other day, and the College Company of volunteers were paraded to receive him. As he rode up they of course stood to attention and saluted when he called out to them, 'Oh! pray do not salute *me*, I am not in uniform. The Lucknow volunteers only salute me when I am in uniform. I am not entitled to a salute without my uniform.'"

THE *South of India Observer*:—Mr. Brough Smythe is extending the radius of his researches as to the area of quartz reefs in S. E. Wynaad. He has visited the Nellamboor Valley, wisely taking advantage of the most healthy season of the year for his excursion to this feverish locality. He is reported to have discovered several large reefs at this low elevation, which are doubtless continuations of some of the veins cropping on the Wynaad plateau, and prove the great depth of the fissures. It is understood that Mr. Smythe now purposes visiting South and West Wynaad for the purpose of ascertaining how far, in that direction, the system of quartz veins occurs. The gentlemen interested in South Wynaad have lately been much exercised in their minds, by the discovery of a reef from which quartz specimens have been taken as rich in visible gold as any stone yet found in Wynaad.

THE *Statesman*:—It is said that His Excellency the Viceroy will come down to Calcutta for a few days to meet the Chief Commissioner of Burma and the Burmese officials for the purpose of ratifying the treaty with the new Government of Mandalay. Lord Lytton's stay in the metropolis will probably extend over ten days.

THE *Civil and Military Gazette*:—Bombay has good reason to congratulate itself on its flourishing trade, even under the adverse circumstances of the last two years, but the burden of the liabilities incurred by the sale of a part and now the remainder of the foreshore property has still to be borne, and its weight is not inconsiderable. The Government has just published the new Port Trust Bill, which is to set up anew the old Port Trust by appointing new Trustees and otherwise providing for the increased responsibilities that have lately been incurred. The details of this new arrangement have little interest beyond the port of Bombay; but we may notice a clause in the new Bill which may materially affect the prosperity of Bombay. The Government specially provides against the diversion of any portion of the revenues of the port to other purposes than paying off the debt; clause 50 provides that after the payment of expenses of administration and of interest on the capital debt of the Trust, all surplus revenue accruing from the rates levied on the trade of the port shall be applied in liquidation of this debt. A more important point, it is remarked, to the trade of Bombay would be, that the rates should be reduced if there be any surplus revenue, and that sales of land should be applied to pay off the huge debts of the port. Bombay must be careful that the scale be balanced and not over-weighted by liabilities.

THE *Delhi Gazette*:—We learn that the Tahsildar of Etawah, a Mahomedan, was murdered on the morning of the 17th instant. It seems that the unfortunate man had occasion to chastise his servant, for which he paid with his life. The domestic watched him closely through the night of the 16th, but had then no opportunity of effecting his purpose. However, whilst the Tahsildar was kneeling at his prayers next morning, he shot him dead. About 8 or 9 o'clock the Collector, doctor, and police came and instituted enquiries.

THE *Civil and Military Gazette* is responsible for the following:—"The latest from Peshawur is that the *ultimatum* letter which was forwarded through the Amir's post has been returned from the Kabul Dead Letter Office, marked "Refused." The rules of the Afghan Post Office not permitting of the "Free" return of such letter, as in our own more enlightened department, the question of the payment of bearing postage has been referred to the Finance Minister."

THE ITALIAN OPERA COMPANY.

WE are glad to learn that the Italian Opera Company have been able to secure the Town Hall for a grand evening Concert, which will take place to-morrow. This will be their final appearance in Bombay before leaving for Calcutta; and on this occasion a very choice programme is promised, which will be published to-morrow. On Saturday night a crowded audience testified their appreciation of this talented Company, and some of the pieces were enthusiastically encored.

MUNICIPALITY POLICE RETURNS.

THE annual reports on the state of crime and working of the Police in the several Divisions of the Bombay Presidency have recently been under the consideration of Government and a Resolution passed thereon. In some districts of the Northern Division a practice has been adopted to make the returns of crime show more favourably than they really are, upon which Government animadverts as follows:—

His Excellency in Council has perused with much interest the useful observations offered by Mr. Erskine in paragraphs 16—23 of his able report on the subject of the importance to be attached to the percentages purporting to show the relative results of the operations of the various bodies of District Police. This question had not previously escaped the notice of Government who were never disposed to attribute too much weight to mere paper returns of the nature referred to. The most that could be said of them was that if prepared fairly and according to a uniform method they supplied probably the best means of testing approximately the comparative degree of success in dealing with crimes and criminals attained by the police of different districts. It was not possible nor was it expected that they would furnish an unerring and absolutely accurate criterion of the relative efficiency of the various police forces. The percentages were prepared from the returns submitted, because they seemed to present one of the best modes available of judging how each body of District Police had performed its duties whether taken separately or contrasted relatively with the police of other districts. But if the percentages in fact possess a certain value is clear, although this value may not actually be as great as at first sight it may appear to be, and one—and that not the least—of the advantages arising from the adoption of such a test is that it undoubtedly has led to the creation of a spirit of emulation amongst the various bodies of police, and has furnished an incentive to increased zeal and energy influencing alike the local head of each police force and all his responsible subordinates. Of late, however, rumours have reached the ears of Government as to the somewhat peculiar methods in which, in some instances, the returns are made out on which these percentages are based and detailed information has been called for in the case of those returns now supplied in the report by the Commissioner, N.D. It appears that in some districts, and notably in Kaira, the practice has prevailed of preparing the Annual Police Returns so as to exhibit results most favourable to the police. The information given in the case of the procedure adopted in the Kaira District leaves no ground for a reasonable doubt on this point. When the police failed altogether to detect a crime or to effect an arrest efforts seem to have been made in order to obtain a declaration that no crime had been committed, thus removing from the police all responsibility for failure. When complaint of the commission of a crime was made, if its detection appeared difficult and no clue was speedily discovered, the ingenuity of the police officers was exercised towards the setting forth of reasons to induce a Magistrate, generally a Second or Third Class Native Magistrate, to authorize the offence being struck off the register as "no crime." It is now known that this system has been at one time set up for trial by the police, if the accused persons were acquitted by the Magistrate, the endeavour of the Superintendent of Police was to discover a pretext on which a Magistrate might be urged to declare that no offence had been committed at all. In other words, the Superintendent was prepared to argue that his subordinates had blundered and had treated as a true case what was an imaginary crime, a mere fiction of the complainant. The results of the system thus followed are that the returns for Kaira fail to show the number of complaints of cognizable crimes actually made or the true number of persons arrested on those complaints. Whilst as a matter of fact 3,683 cognizable cases were reported in Kaira in 1877, as remarked by Mr. Erskine "2,274 were struck off as 'no crime,' that is to say, 62 per cent. of the whole number of complaints have been struck off, and 30 per cent. of accused persons released on bail do not figure in the returns at all." It may also be here observed that whilst 2,274 cases were struck off as 'no crime' on the ground that the complaint was false or unfounded, it appears that during the year in the Kaira District the number of cases in which persons were charged with giving false evidence or making false complaints was only 41. Either, therefore, in the great majority of cases the complaint was true, or in over 2,200 instances persons known or believed by the police to have preferred false complaints were allowed by them to remain unprosecuted and unpunished. Under these circumstances the apparent success of the Kaira Police ceases to be a subject for congratulation. The conduct of the Kaira Police will be separately investigated, and they will be placed on their defence touching the matters reported by the Commissioner. The exposure of such practices renders them futile and serves as an admonition to others. In Broach, Surat, Kolaba and Ahmedabad the same state of things would seem to prevail, though not to an equal extent. His Excellency in Council is constrained to express his dissatisfaction at the adoption of such a procedure as that now brought to light by the Commissioner, N. D. His deepest regret is that it should be to mislead Government and the public and materially to impair the efficiency of the police. He most seriously warns all police officers, European and Native, against permitting such practices to prevail—practices which are most detrimental and which whenever discovered will be visited with substantial marks of the displeasure of Government. He would impress upon the Commissioners the absolute necessity for careful attention to this subject and for the strictest scrutiny of the returns of the various Police Superintendents. He would also request the particular attention of the District Magistrates to Mr. Erskine's remarks, and would desire them to enjoin upon their Subordinate Magistrates the exercise of the greatest caution and discrimination in complying with the applications of the police for striking off as 'no crimes' reported complaints.

ACQUITTAL OF A PRISONER OF A CHARGE OF MURDER.

ON Thursday the 21st inst. the case of the Empress *vs.* Trimbak Ravji came on for hearing at the appellate side of the High Court before the Hon'ble Mr. Justice Melville and Mr. Justice Kemball. The prisoner had been sentenced to death by Mr. Crowe, the Sessions Judge of Ratnagiri, on the charge of having murdered one Vishram bin Babaji by shooting with a gun. The circumstances under which the deceased was shot were, as alleged by the prosecution, these:—There was a dispute between the deceased and the prisoner about the possession of a certain piece of land. The deceased went to the land and was ploughing it when the prisoner came up with a loaded gun and asked him to desist from ploughing. Upon the deceased declining to do so, he was shot through the left groin and died in about 18 days. It was urged for the defence that the prisoner was a sportsman and was out shooting that day. On his way home, he happened to pass by the land where the deceased with others ploughing. He asked them to desist from ploughing, whereupon some of the men fell upon the prisoner and began to pull the gun from his hand; and in this scuffle the gun was accidentally discharged and the ball lodged in the left groin of the deceased. The Session Judge disbelieved the story set up for the defence and sentenced the prisoner to death. Before the High Court it was argued that there was no evidence that the prisoner went to the field with the intention of shooting his enemy and that the witnesses for the prosecution were all interested in the land in dispute, and therefore unreliable. The learned Judges held that the prosecution had failed to make out a case of murder against the prisoner, and that it appeared that the gun was discharged in the scuffle between the prisoner and the deceased and others. The court therefore acquitted the prisoner and ordered him to be discharged. Mr. Nanabhai Haridas appeared for the Crown and Mr. Manekshah Jehangirshah for the accused.

THE SINS OF THE AGE.—The ignoble love of ease and pleasure: the degrading worship of wealth; the demoralising frauds and dishonesties that come of the fierce haste to possess it: the senseless extravagance of luxury that too often follows on its possession; the effrontery of vice that flushed with pride and fullness of bread, no longer condescends to pay to virtue even the tribute of hypocrisy; the low cynicism that sneers away all those better thoughts and higher aims that are the very breath of a healthy and nobler life, and springing out of these, the strife of interests, the war of classes, widening and deepening day by day as the envious selfishness of poverty rises up in natural reaction against the ostentatious selfishness of wealth; the dull, desperate hate with which those who want and have not come at last to regard the whole framework of society, which seems to them but one huge contrivance for their oppression; the wild dreams of revolutionary change which shall give to all alike, without toil or sacrifice or self-denial, those enjoyments which are now the privileged possession of the few, but which the many long for with a bitter and a persistent longing—these are some of the seeds of evil which, sown in our own soil and by our own hands, may one day rise up, an exceeding great army, more to be dreaded than the invading hosts of any foreign foe. The glare and glitter of our modern civilisation may hide these to a time from us; we may fail to see how some of the most precious elements of our national greatness are withering in its heated atmosphere; or what evil things are growing to maturity in the darker shadows that it casts—but they are there, nevertheless; and, if we heed them not and reform them not, the time may come when we may wish that the sharp and sobering discipline of war—nay, even the terrible trials and shadows of defeat—had visited us in time to save us from the greater horrors bred out of our own sins in time of profoundest ease and peace.—*The Bishop of Peterborough's Charge.*

BOMBAY.

BOMBAY TEMPERANCE LEAGUE.—A lecture on temperance will be delivered, under the auspices of the League, by Bishop Bowman, D. D., at the Framjee Cowasjee Institute, Dhobie Talao, this evening at 5-15 o'clock. Europeans and natives are cordially invited.

ST. ANDREW'S DAY.—We have been asked to intimate to those who intend applying for tickets of admission to the Choral Festival Service, at Byculla Church, which tickets are to be had free at the Byculla Schools' office, that they should at the same time purchase a copy of the Service, price 4 annas; as by the sale of these books it is hoped to defray the cost of the necessary printing expenses, which are attendant on every Festival.

INTERCOMMUNICATION BETWEEN GUARDS AND DRIVERS.—The proposal of Mr. G. K. Winter, Telegraph Engineer of the Madras Railway, for carrying on "Intercommunication between Guards and Engine Drivers" by means of a "Cord line and Bell" in case of any apprehended danger or accident, has been sanctioned by Government, and will come into operation from the 1st of January next.

FIRE IN GULLALWADY.—Yesterday afternoon about a quarter past 4 o'clock, a fire broke out in a three-storey house situated in Gullalwady, a street lying almost midway between the Moombadevi chowkey and Poydhonee which leads up straight into Duncan Road. The house contained a large number of small rooms on each floor which were occupied by Hindoos. One of the tenants occupying a room on the second storey, a Hindoo female, having, it is said, placed a copper pan on the fire-place with a quantity of ghee in it, and having locked the door of the room, went to a neighbouring temple for devotional purposes, hoping that by the time she returned the ghee would be sufficiently heated for cooking the particular sort of food she had intended for herself that day. During her absence, the ghee in the pan ignited; and the flames, overleaping the metallic receptacle, caught some timber-work which facilitated their progress through the room and the upper portion of the building. An alarm of fire soon brought the municipal fire-engines to the place; and the assistance rendered by a number of bhistees and others, under the directions of European police officers, headed by Mr. Brown, the Superintendent of the division, was so far effective that the fire was soon subdued and put out in less than two hours. The upper two storeyes of the house were wholly destroyed; but the adjoining property was saved.

HOUSEBREAKING AND THEFT.—Hussain Mamdeen, residing at Obeliak Road, reported to the police on Saturday that his shop was broken into on the night previous, and a box containing Rs. 37 stolen. The empty box was subsequently found by a policeman lying in a gully at Camatespoors,—Another theft of a similar nature was reported to the police on the same day by Krishna Moreshar, residing at Patton Street. His shop was also broken into, and a box containing cash and ornaments to the value of Rs. 25 was stolen.

ALLEGED DEATH FROM AN ASSAULT.—The adjourned inquest into the circumstances connected with the death of Mullooba Oomajee, a mucadam in the service of Mr. Jamsetjee Nowrojee Kapadia, a liquor seller, who had died from the effects of an assault committed upon him by some person or persons at Gogharee Mohola on the night of the 11th instant, was resumed on Saturday last when the following verdict was recorded: "That the death of Mullooba Oomajee was caused by blows on the head with a stick inflicted on him by some person to the jurors unknown, under such circumstances that the act of the said person was culpable homicide amounting to murder."

EMBEZZLEMENT OF SHIP'S CARGO, &c.—On Saturday last, at the Fort Police Court, Mr. William Bisset, the chief officer of the British ship Bessie H., who was paid off and discharged from that vessel on the previous day, was charged before Mr. C. P. Cooper with embezzling a portion of the cargo and stores of that vessel, consisting of a dozen cups and saucers, a few yards of old canvas, and a sail-maker's file. The prosecutor, Captain J. McManus, the master of the ship, was taken, who identified the crockery ware as similar to the articles that he had brought as cargo for Bombay, but the canvas and the other article he said he could not swear to as belonging to the ship's stores. The case stands adjourned to the 26th instant.

ASSAULT.—Mr. John Fagan, an officer of the P. and O. steamship Mongolia, was on Saturday last charged before Mr. C. P. Cooper with causing grievous hurt to Abba Shaik Ally on the 19th instant. The accused is alleged to have inflicted three or four blows with his fist on the man, a labourer employed on board the ship. It appears that the complainant followed some water to escape from a hose, which fell on the accused, when he struck complainant. The blow knocked him on to some iron projection, injuring his right side, and rendering him insensible. He was removed to the J. J. Hospital, where he is now under medical treatment. The case stands adjourned to Tuesday (to-morrow), pending the recovery of the complainant. The accused was held to bail in a sum of Rs. 500, in his own recognizance.

SHOLAPORE.—The *khureef* crop in this district has not been so good as was expected, though it is much better than that of the two previous years. The *rubbee* crop is a splendid promise, and is expected to be unusually heavy. The country has a most healthy appearance, all along the line of railway, than it has had for more than two years. *Dhond* is a very busy place, owing to the running of the railway, and also to the works that are going on there. The public health is good.—*Deccan Herald.*

DEATH CAUSED BY THE STING OF A SCORPION.—We regret to hear of the death of a little child of a year and 8 months old, caused by the sting of a scorpion, which occurred at the Wanowrie barracks last Tuesday. Lance Corporal Broderick's wife, a recent arrival in India, who only arrived by the last draft from England, for H. M.'s 2-11th Regiment, were unable to ascertain the cause of their child's agony and screaming till after its death, when a large grey scorpion was discovered under the bed clothes.—*Deccan Herald.*

SINCE the departure of the Rev. Mr. Boyd, in June of last year, the Free Church congregation of Bombay has been without a pastor, and has been dependent on the kind offices of the missionaries for the supply of its pulpit. We have very much pleasure in announcing the expected arrival, at an early date, of the newly-appointed pastor, the Rev. Robert Jeffrey, lately minister of the Irish Presbyterian Church at Greyabbey near Belfast. Mr. Jeffrey has just been loosed from his charge in Ireland and will now be embarking for Bombay. He leaves a warmly attached congregation in which he has laboured for several years with much acceptance and not without tokens of success in spiritual work among his people. Accounts have just been received of the meeting of Presbytery at which the call from Bombay was presented to Mr. Jeffrey. The high testimony which was borne by the members of the meeting to Mr. Jeffrey's ability and usefulness, and the regret expressed at the prospect of his departure give us good reason to expect that in Mr. Jeffrey the Free Church congregation will have a pastor well fitted for the sphere to which they have called him, and that Christian work in Bombay will receive an important accession.—*Bombay Guardian.*

THE TRAFFIC ON THE B. B. AND C. I. RAILWAY.—The decrease in goods traffic on the B. B. & C. I. Railway for the week ending 16th November 1878 was 70,878 maunds, and in money Rs. 27,924. The quantities carried and the earnings compared with 1877 are as follows:—

BLONDIN.

THE new Blondin made his first public appearance in Bombay on Saturday night, in the large enclosure which has been prepared for his performances on the site occupied by Wilson's Circus—a few weeks ago. The attendance was not so large as might have been expected, which fact was probably due in a great measure to the Concert given by the Italian Opera Company at the Framjee Cowasjee Institute. "Blondin" is decidedly a clever rope-walker, and his performances are very interesting. The accommodation for the spectators is very good, and as the enclosure has no roof, it has the advantage of being cool, which contributes much to the pleasure of the entertainment.

FIFTH CRIMINAL SESSIONS.

FOURTH DAY, SATURDAY, NOVEMBER 23.

(Before SIR CHARLES SARGENT.)

THE following case was heard before his Lordship and a common jury:—

CHEATING.

Premjee Oomersey was charged with cheating Rundoordass Motichund, a salesman in the employ of Currimbhoy Ibrahim, and thereby inducing the delivery of several boxes of crockery and cinnamon, and bags of sugarcandy; and Narcoojee Dawjee was charged with abetting the commission of the offence. The Advocate General, with Mr. Farran and Mr. Inverarity, instructed by Messrs. Macfarlane and Gilbert, conducted the prosecution: and Mr. Gill, instructed by Mr. Shamrao, appeared for the defence.

The Advocate General briefly stated the facts of the case to the jury. The prisoners were muccadums and used to buy goods of the prosecutor's former salesman in small quantities. A new salesman was employed by the prosecutor; and taking advantage of the man's inexperience as to the character and position of the customers, the prisoners between the 24th and 31st July 1878 bought large quantities of cinnamon, sugarcandy, and crockery. On each occasion of purchasing the goods, the prisoners represented that they had received orders for the goods from up-country and agreed to pay cash on delivery of the goods. In this way they obtained 56 bags of sugarcandy, 100 boxes of cinnamon, and 244 boxes of crockery, of the collective value of about Rs. 9,000. Prisoners, however, did not pay a pie of the purchase money; and although demands were made, the prosecutor and his salesman were put off on various pretexts. The salesman's suspicion was excited after the last delivery of goods when the first prisoner said in answer to a demand for money, "I'll pay for the goods when I have sold them." The salesman had parted with the goods on the clear understanding that they were to be paid for on delivery, and he was surprised at the abovementioned answer. An information was laid before a magistrate, a warrant was issued, and the prisoners were arrested on the 10th August last in the house of a woman in Duncan Road. With the exception of three bags of sugarcandy, the whole of the goods were afterwards found concealed in different godowns in Bombay where they had been kept nominally in the prisoners' names. The China matting on the boxes was removed, and gunny cloth had been put on; but the identity of the goods was proved by the prosecutor's initials. The fact that the whole of the goods were in Bombay and had not been sent up-country was a clear indication that the prisoners had resorted to false representations. They had applied for the benefit of the Insolvent Debtors' Act, having filed their petition on the fifth day after the last delivery of goods to them. The evidence would show that the draft petition was prepared on the 20th July 1878, four days before the first lot of goods was nominally purchased, thus showing the dishonest intention of the prisoners. On the 20th July they contemplated an insolvency, and yet on the fourth day after that they made purchases of goods and continued doing so until the end of the month. On the 6th July 1878, a decree for Rs. 75 was issued against them from the Small Cause Court which they were unable to satisfy. Two persons named Goool Shamjee and Mahomed will probably be called to say that the prisoners sold the goods to them in payment of previously existing debts. Goool was found with the prisoners in the room of the woman at Duncan Road. He and the other men were trying to induce the prisoners; but they themselves were parties to the swindle.

Evidence was then led for the prosecution; and the principal witnesses were cross-examined by Mr. Gill at great length.

The case for the prosecution had not closed when the Court adjourned until this (Monday) morning. The jury were allowed to separate.

THE BOMBAY, BURMAH TRADING CORPORATION.

AN ordinary general meeting of shareholders of the Corporation was held on Friday last at its registered office, 2, Parsee Bazar Street, to adopt the report of the directors and pass the audited accounts for the year ending 31st May 1878; to sanction the declaration of a dividend; to elect directors in place of those who retired by rotation; and to appoint auditors for the ensuing year. Mr. Bryce, of Messrs. Wallace and Co., secretaries, treasurers, and managers, was in the chair.

NOTICES.

CABUL SERVICE TENTS.

ACCORDING to weights laid down by Government for the Expeditionary Force, can be had at short notice on application to

THE AGENT,
ELGIN MILLS COMPANY, CAWNPORE.

TO CONTRACTORS.

THE undersigned will receive, till the 15th December, TENDERS for the CONSTRUCTION of TWELVE (12) MILES of ROAD from MALKAPUR to AMBA, in the Southern Mahratta Country, part of the earth work of which has been completed.

The road is required to be completed by 1st June 1882, and the yearly allotments of money for the work will be proportional to the above time of construction.

Schedule of quantities, specifications, and conditions of contract can be obtained from the office of the Executive Engineer Kholdpur, where Plans of the work can be seen.

The undersigned does not bind himself to accept the lowest or any Tender.

WALTER M. DUCAT, Major, R.E.,
Executive Engineer Khola, ur Division.

TENTS! TENTS!! TENTS!!!

MR. ADUMJEE PEERBHOY, Government Contractor and Tent Merchant, begs most respectfully to notify for the information of his Constituents in Bombay and the Mofussil that he has at considerable expense made several upsoal alterations and additions to his tents to suit their convenience and comfort. These gentlemen who last year patronized him were, he is glad to say, thoroughly satisfied, and have certified that his tents were far superior in every respect to others, and that the charges were moderate.

Mr. A. P. is also able to prepare ready for delivery within a week's time a Tent of any description for gentlemen who may be desirous of having one of their own on short notice.

The following table will show the different sorts of Tents and their dimensions:—

DOUBLE POLE TENTS.

CARTER & CO.'S
"HALAWAT ARABIYA"
(THE DELICIOUSNESS OF ARABIA)
THE HORSE FOOD OF THE ARABS,

IS a unique preparation, composed of highly nutritious and aromatic elements, most palatable and digestible in itself, and capable of stimulating the Appetite and Digestion, without the aid of deleterious Drugs.

This valuable FOOD and RELISH, known to the Arabs for ages, and used by them in the preparation of their Colts for the extraordinary trials of speed and endurance for which the Arabian horse is famous—and in imitation of which many pernicious condiments doubtless owe their origin—is now introduced for the first time to the general public, and from the very flattering reception already awarded it in England its ultimate universal adoption by all who value their horse's health and appearance is assured.

As a TONIC INVIGORATOR it is highly recommended for all horses suffering from DEBILITY after Sickness, OVERWORK, Improper Feeding, or from the most general of all equine ailments, DYSPEPSIA, the precursor of Colic, Surfeit, Diabetes, Inflammation of the Bowels, Want of Appetite, and Loss of Strength and Spirits.

To the young, tired, aged, overtaxed, or delicate horse it is simply invaluable.

For the Lady lover it is most beneficial, acting as a corrective whenever insufficiently masticated food is swallowed.

It is likewise a most valuable addition to the horse's daily diet, as from its highly digestive qualities it assists in the assimilation of the food by which the entire nourishment is extracted. It preserves the stomach and digestive organs of the horse in a proper tone, promotes a good appetite, ensuring rapid growth, and a healthy and vigorous condition.

After a severe and exhaustive day nothing is more acceptable to the horse or more beneficial as a restorative than the addition of a Packet of the ARABIAN HORSE FOOD AND RELISH to the horse's evening gruel or mash.

THE ARABIAN HORSE FOOD AND RELISH
Is sold only in Cases containing 56 Sealed Packets.
Price Rs. 9.

NOTICE!!!

CHARIVARI'S
Third Christmas Annual and Almanac.

On or about November 30th, 1878, will be published at the

CHARIVARI OFFICE, 10, DACRE'S LANE, CALCUTTA,

Charivari's Third Annual for 1878 and Almanac for 1879.

Price, Rs. 2-8; or with Mofussil postage, Rs. 2-12.

THE ANNUAL will be copiously illustrated by the best European Artists in India; the Calendar, especially being embellished with artistic borders, exhibiting designs of great beauty, and the whole will be bound in a richly ornamented cover, forming an appropriate and elaborate title page.

The Contents will comprise Tales, Poetry, Conundrums, &c., &c., after the fashion of the ventures of this class periodically appearing in England at the Christmas Season. Several gentlemen of known literary ability, both here and in England, have been communicated with, and have promised to contribute, and general contributions are invited.

Bearing in mind the very considerable success which has attended their former Annuals, and having in view the fresh attractions of both Literary and Artistic which they are now offering, the Proprietors confidently expect the support of their Subscribers and the General Public.

ORDER EARLY FROM CHARIVARI OFFICE:
10, DACRE'S LANE, CALCUTTA.

WELL WORTHY OF NOTICE AS A CERTAIN CURE.

For Bilious and Liver Complaints, Indigestion, Wind, Spasms, Foul Breath, Nervous Depression, Irritability, Lassitude, Loss of Appetite, Dyspepsia, Heartburn, Sour Eructations, Drowsiness, Lowness of Spirits with sensation of fullness at the pit of the Stomach, Giddiness, Dizziness of the Eyes, &c.,

DR. SCOTT'S BILIOUS AND LIVER PILLS STAND UNRIVALLED.

As a General Family Aperient Medicine they have no equal, being mild in their operation, and grateful to the Stomach, they give a healthy tone and vigour to the different secretions, causing the necessary organs of the Stomach and Liver to resume their activity, thus restoring the appetite, promoting digestion, and strengthening the whole system.

They can be taken at any time without restraint from business or pleasure, hence they are a most valuable domestic Medicine. Heads of households should always have a box of these Pills by them, to resort to on any slight occasion or ailing on the part of those under their charge, as by paying attention to the regular action of the Stomach, Liver and Bowels, many severe illness is avoided or mitigated. They will be found in slight cases by a single dose to restore health to the body with a happy frame of mind.

Prepared only by W. Lambert, 14, Vere Street, London, W., England. In bottles ONLY, 1s. 1½d. and 2s 9d. Sold by all Chemists.

IMPORTANT CAUTION.—Be sure to ask for "Dr. Scott's Bilious and Liver Pills," in a green bottle, wrapped in green paper, and having the name and address,

WILLIAM LAMBERT,
8, King William Street, Charing Cross,

Engraved on the Government Stamp. Do not, therefore, purchase without seeing the Government Stamp over the cork of the bottle.

GRIFFITHS' NEW ZINC WHITE PAINT possesses the following advantages over White Lead and Oxide Zinc:—

Covers 100 per cent. more than Oxide Zinc.
Do. 25 do. do. White Lead.
It retains its whiteness under all conditions.
Will stand 500 degrees of heat.
Will never blister.
Is non-poisonous. Has no smell.
Has no chemical action upon metals.

This substitute for White Lead received the highest praise at meetings of Society of Arts, London; and Social Science Congress; is used by English and German Governments.

The following are a few extracts from numerous Reports already received:—

PROFESSOR PHIPSON, says: "It is one of the most ingenious and useful discoveries of modern times."

PROFESSOR BARFF, M.A., Lecturer on Paints and Colours to Society of Arts, Chemist to Royal Academy, &c.—"Has great body, covers well, absolutely resists the action of foul air, a red heat will not permanently alter its appearance, will always retain its opacity."

JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c., &c.—"Much more stable than White Lead."

LUTS CHAUNIG & Co., Liverpool Assay Office.—"Body dense and opaque, covers better than White Lead. Sulphuretted Hydrogen has no effect upon it, does not blister, absolutely neutral towards iron, &c., will entirely supersede White Lead."

T. A. BRITTON, late Surveyor to the Metropolitan Board of Works.—"Superior to any other similar substance I have ever met with—is a pure white, retains its opacity, is not affected by foul air, has a good body."

J. H. & S. JOHNSON, Oil and Paint Merchants, Liverpool.—"Has the body of Lead, but does not tarnish like it."

F. A. BARROW, White Lead Merchant, 191, Hope-str et, Glasgow.—"Covers better and a greater surface, and in colour is superior to White Lead."

C. H. TOZER, Practical Decorator, &c., 56, Treherne-road, London.—"The best thing that has been brought under my notice."

G. W. BREWER, Decorator, 54, Crawshay-road, London.—"A beautiful White, far superior to White Lead. Will mix with colours White Lead destroys."

W. MALE, Painter, Oxton.—"Does not blister with a degree of heat that destroys Lead."

For full particulars apply to

GRIFFITHS, FLETCHER AND BERDOE
Seel Street, Liverpool & 107, Canon Street,
LONDON,

Or any Agents of the Silicate Paint Company.

F. HARLEY & Co., Calcutta. W. NICOL & Co., Bombay. Testing Samples forwarded free on application.
